

REMARKS

Attorney for Applicant was informed by Examiner Hurley regarding the need in the present application for an amendment pursuant to 37 CFR 1.312 to enter the "Sewing Performance Results" graph on page 13 of Applicant's specification as a formal drawing and reference it as a figure in the specification prior to the issuance of the patent. Applicant hereby makes such request and amendments without prejudice and for purposes of expediting issuance of the patent application. Thus, Applicant requests that the formal drawing of the graph, now referred to herein as Figure 2, and the amendments referencing the figure in the specification be entered before the deadline for payment of the issue fee such that the patent application may proceed to issuance. No new matter has been added.

As the attorney of record has changed for the present application to the undersigned, Applicant hereby encloses a 37 CFR 3.73(b) Statement and Substitute Power of Attorney for entry on the record in the present application.

No fee is believed to be due. However, if a fee is due, the Commissioner is authorized to charge said fee to Deposit Account No. 18-1215.

Respectfully submitted,
